Portable Audio Handset

Call Another Handset

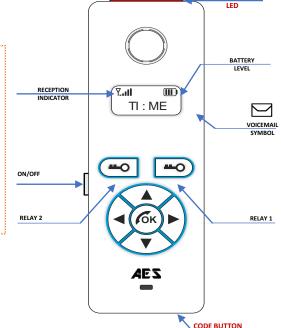

Press and the unit will display 'HS1', 'HS2', 'HS3', 'HS4' depending on how many handsets are coded in the system. Then use the ◀ and ▶ you can select the handset you wish to call and then press for to start the call.

Change Ring Volume

Press ▲ and ▼ to increase or decrease the ring volume and then press for to save.

Adjusting Relay time

Press Relay 2 button for 3 seconds, scroll through menu until you see 'ti'. Press Kok to select 'ti' and adjust your relay times. Press 6 to select your relay time. Press to end the process. Both relays will have the same relay time.

Handsets will be displayed in order of H1, H2, H3 & H4. (only 1 handset per button)

HANDSET BATTERIES INCLUDED (2 x AAA 600mA Rechargeable)

When a call is not answered within 40 seconds. the visitor can leave a message. Once complete, the handset will display the symbol. The unit can store up to 16 voice messages.

Change Ring Tone

Press and the handset will ring with its currently selected tone. Then you can press the and we keys to cycle through the available ring tones. Then press for to select and save the tone.

To listen to a voicemail, press 𝒪κ . If there is more than 1 use ▲ and ▼ to select the message required and press 6 to play. Press once to Delete the message or press and hold to delete all.

RE-CODING/ADDING EXTRA HANDSETS

Occasionally the system may need to be re-coded once installed.

If the handset does not ring when the call button is pressed, the system may need to be re-coded.

> (• = FULL RE-CODE : STEP 1-5) (• = ADDING A HANDSET : STEP 3-5)

TRANSMITTER CODE BUTTON

 Step 1) Press and hold the CODE BUTTON inside the Transmitter Module for 5 seconds until the audible tone is heard from the Intercom speaker.

(On 603 Transmitter the blue LED marked D17 should also flash.)

• Step 2) Then press the CODE BUTTON 14 times and wait until the melody is heard or the LED turns off. Performing this step will remove ALL handsets currently synced (or partially synced) to the system.

(Note: Doing this step will also clear ALL voicemails after reset.)

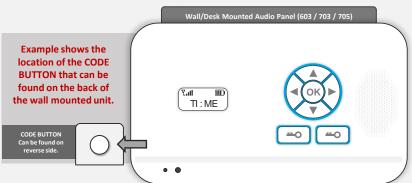

Step 3) Press and hold the CODE BUTTON inside the Transmitter Module for 5 seconds until the audible tone is heard from the Intercom speaker.

(On 603 Transmitter the blue LED marked D17 should also flash.)

Step 4) Then press and hold the CODE BUTTON on the handset until the red LED at the top begins to flash, after a few seconds you will hear a melody play to let you know it has successfully connected.

(Repeat Steps 3 & 4 for each new handset.)

• Step 5) Finally you should test the kit to ensure that everything is working as expected by pressing the Call Button on the CallPoint to ensure the handset and/or wall mounted unit receives the call and that the two way speech is functioning correctly.
