DESCRIPTION	Modular 4000 series Wiegand proximity module for use with Portal Plus (PPCU2) and SC24000 access control CPU's
FRONT FASCIA OPTIONS	Mirror Stainless Steel, /M Matt 316 Marine Grade Stainless Steel, /BL Gun Metal Grey
INDICATION LED'S & REASSURANCE TONES	Yes: 3x indication LED's (front), amber = standby/data, green = access granted, red = access denied, internal audible buzzer
TECHNOLOGY & READING TYPE	RFID, EM4102/EM4200 with an operating frequency of 125kHz
PROTOCOL	Programmable Wiegand (26 to 40-bit), CLOCK & DATA and CODIX protocols, by default set to 26-bit Wiegand
READ RANGE	8 - 10 cm (approx.)
IP RATING	Main reader has sealed resin potted electronics with IP65 rating
COMPATIBLE FOB'S / CARDS	Fob: PBX1E , card: PBX2
COMPATIBLE ACCESS CONTROL CPU'S	PPCU2 Portal Plus control cabinet and SC24000 2 door controller
MODULE SIZE	1 module 4000 series: 103 (W) x 120 (L) x 30 (D) mm
READER CONNECTIONS	Terminals: 1 = +LR , 2 = -LR (red LED, access denied), 3 = +LG , 4 = -LG (green LED, access granted), 5 = D1 (data), 6 = D0 (clock/data), 7 = - (GND), 8 = + (12Vdc)
WORKING VOLTAGE	12Vdc supplied directly from PPCU2 or SC24000 CPU reader input
POWER CONSUMPTION	During Operation: 30 - 40mA (max.)
WORKING TEMP.	-10° to +50°C
