- Design your own **garden hideaway**

## CHOOSE FROM 4 MODELS

# YOUR IMAGINATION IS THE ONLY LIMIT

## A WIDE VARIETY OF STYLES

Whether wood, plain metal sheet, stamped or micro perforated, our solid and metal effect models offer a wide range of decorative appearances and designs.

Walnut wood

Aged pine wood

Plain metal sheet

Square stamping

Round stamping

Oblong stamping

Microperforated metal sheet

Tooth pattern metal sheet

Customised metal sheet

## Get the perfect match

All the settings are also available in our range of contemporary gates. Match your fence panel with your gate.

## BESPOKE SPACES

Thanks to our system of clipping to position between the slats, adjust the concealment of your fence panel to your needs.

## A UNIQUE DESIGN

Customise your fence panels with our unique dotting technology!

For all our plain and metal effect models, your imagination has no limits thanks to our plain sheet perforation system: print a text, image, logo or simply your house number.

(Based on feasibility study)

**CREATIV**

## POWER COATING 2 COLOURS

Matt finish, slightly textured

Grey 7016

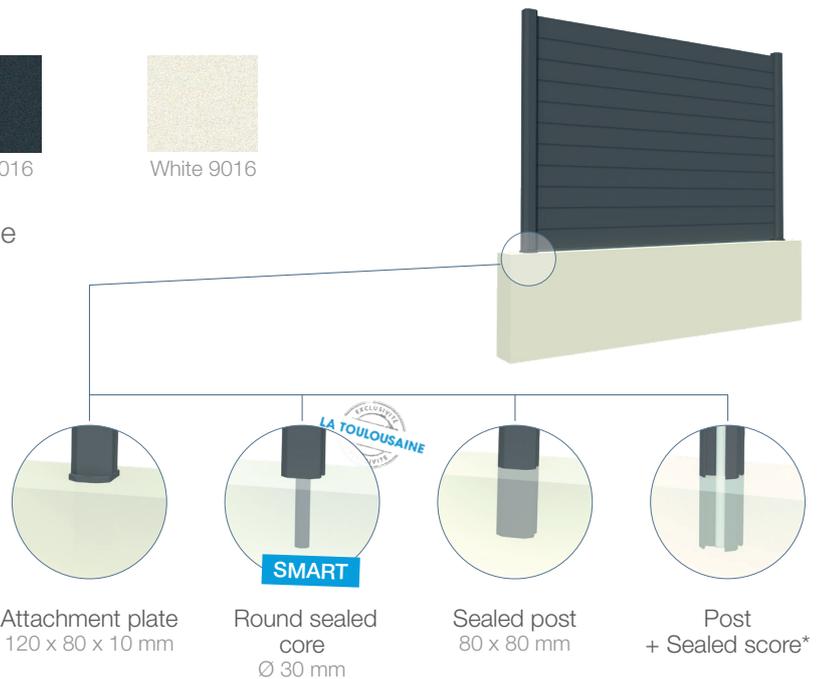

White 9016

Colours from the Structura palette, also available in our range of gates.

## EASY TO INSTALL

Our modules can be manufactured in ready-to-cut standard forms or ready-to-install customised forms. Thanks to our different installation systems, they can be adapted to any environment.

\*If the height of the post is higher than 1,800 mm, a core is integrated to reinforce the profile.

## TECHNICAL DATA

### Module components:

- Posts (intermediate or 90° angle) 80 x 80 mm
- Black PVC post cap 80 x 80 x 17,5 mm
- Intermediate clips, bottom and top 28 x 19 mm, adjustable

	Height (mm)	Slat width (mm)		Maximum post height (mm)
<b>Plain slat</b>	125 ou 250	125 ou 250	<b>Attachment pate</b>	1,100

<b>Screen slat</b>	128	125	<b>Sealed post</b>	1,800
<b>Metal Sheet</b>	440	440	<b>Post + Sealed core</b>	1,800 < Ha ≤ 2,000

**Dimensional data per module:** 2,000 mm post spacing

# PRODUCTS YOU CAN RELY ON

## LA TOULOUSAINE, 60 YEARS OF TRUST AND RELIABILITY

Over the past six decades La Toulousaine has gained considerable expertise in designing quality closure solutions you can rely on.

Our technical center and industrial premises are based in Toulouse, France, a city at the forefront of European engineering.

More than three hundred skilled technicians, designers and operators work together to provide our customers with the best products and solutions.

Sixty years of history also means we have developed a trusted network of qualified independent technicians to install our products, because a good product needs to be installed and maintained expertly.

With more than a million solutions keeping homes and businesses secure throughout Europe, La Toulousaine is a top-of-the-range standard in the industry.
